DIRECTIONS FOR READING THESE POLICIES:

- Open first file *Series 2000 PLS Correlation Table*. This file shows you the new policy name & new policy numbers, as well as the original policy that it was changed from. If there was no original Currituck County Schools policy then there will be a Ø. This crosswalk is written by the NC School Board's Association attorney assigned to our Policy Customization.
- Read and review each policy carefully. In the policy you will see the changes staff made as well as any comments from the NCSBA Attorneys assigned to us. We will work with these policies during the work session to make any additions or deletions. We will send any edits to the attorneys for a last look before the December meeting.
