Currituck County Schools
2958 Caratoke Hwy
Currituck NC 27929
Attn: Ms. Allison Sholar, Superintendent

Dear Ms. Sholar:

Congratulations! The North Carolina State Board of Education approved your LEA School Technology Plan on May 3, 2012. Your long-range plan becomes effective on July 1, 2012, and remains in effect until June 30, 2014. This approval qualifies your school district for E-Rate Priority 2 discounts, and other possible public and private grant opportunities.

The completion of this plan represents a great deal of hard work on the part of your district's technology committee, teachers, and especially your district-level media and technology staff. It is an affirmation of your commitment to preparing learners for living and working in the information age. It also represents an understanding of the role that technology and information literacy will play in lifelong learning, a necessity in this global economy. This plan's consistent evaluation and updating ensures that your teachers and students will have the resources necessary for productive teaching and learning in the 21st century.

As your district begins to implement the goals and objectives within your plan, do not hesitate to contact your regional NCDPI Instructional Technology consultant to arrange a site visit with your technology director at any time assistance is required.

Again, I congratulate you on this success, and look forward to continued collaboration between the Department of Public Instruction and Currituck County Schools.

Sincerely,

A handwritten signature in cursive script that reads "Rebecca Garland".
